Professor B R Davidson
Dept of Surgery
RFH

Dear Professor Davidson

Re: **Angus STEWART DoB: GRO-C 65**

GRO-C

London

GRO-C

The above named patient is well known to you as a patient of Professor Christine Lee. He has recently had a three month inpatient stay for investigation of apyrexia of unknown origin. I enclose a discharge summary from this admission. However, I have reviewed him one week post-discharge and he continues to have night sweats and diarrhoea. I know that during his inpatient stay a laparoscopy/laparotomy was considered for possible small bowel lymphoma and I wondered if you could review him for us in light of his continuing symptoms re: the necessity for the above. As you are aware he has von Willebrand's disease and would require treatment prior to any surgical procedure.

Yours sincerely

GRO-C

Karen Murphy

Enc.

Brian - you've
never seen him &
don't know him -
but they do want
you to see him
a.s.a.p.
