Dear Mr Laws

Michael MORROW - GRO-A 29
GRO-C

I would be very grateful if it would be possible for you to review this gentleman, with severe factor XI deficiency and hepatitis C infection, who has been having increasing problems with his dentician recently.

I would be very grateful if you could let me know the date of his appointment, so that we could also arrange to see him in the Haemophilia Centre for review on the same day.

Many thanks.

Yours sincerely,

GRO-C

Dear Mr Laws

GRO-A GRO-A:29

GRO-A

This gentleman who has severe factor IX deficiency and also has advanced liver disease secondary to hepatitis C infection, has a terrible problem with his teeth in that they are literally falling out! He is a lifelong snuff user and I suspect that this may have played a part in the general deterioration. I wonder if it would be possible for you to review him soon. He is wheelchair bound and our Domiciliary Nurse pays regular visits to his home. He is expecting to hear from you directly.

With kind regards.

Yours sincerely

GRO-C

Dear Dr Pasi

Mr GRO-A DOB GRO-A:29
Hospital No. GRO-A
GRO-A

Thank you for referring this man. His teeth are in an appalling condition and really many of them should be removed. However, he is reluctant to agree to this and in view of his medical problems, I do not think that there is any great urgency, unless you specifically need to remove all sources of infection.

Kind regards

Yours sincerely

GRO-C
