CLINICAL NOTES (Each entry must be signed)

7/2/95

Review Paros, belly and 1 year old child Brandon.
Recurrent swelling of subcutaneous cyst in rt. ear lobe. Resolves spontaneously.
→ Needs to be referred back to surgeon. Would like revision.
Required hydrocortisone + pain to over treatment at time of ear surgery because of severe reaction - pain in legs.
No reaction when treated with nonsteroids subsequently.
Recurrent backache (long term problem)
Made redundant 2 1/2 yrs from job as chef.
Hepatitis C - diagnosed prognosis, interferon + general health
- takes 3-4 pints same weekends. Has cut down considerably on alcohol intake.
- smokes 10 cigarettes a day.
- wife has been asked - neg. No further intervention.
→ Would like to see Dr. de Vries
live - previously visited 3 children home.
Invasive suppress
BP 110/80. Urine: NAI
O/E wt. Mouth healthy No lymphadenopathy. No ext. stigmata of his disease.
Chest clear
Abdomen: tender, no masses, liver & spleen not palpable.
all joints full RAA
