GRO-B

When [GRO-B] had his head cut open he made it very clear he wasn't to have any blood clotting agents.

My father [GRO-B] went to the hospital with [GRO-B] and made it clear to all the medical staff that [GRO-B] had specifically asked him to let everyone in the hospital know this.

This is something my father and [GRO-B] mentioned after the incident and visit to the hospital.

Regards

GRO-B
