**Historical transfusion records**

Dear Ms. **GRO-D**  
As per our telephone conversation today.

I have traced the records for  
Andrew Patrick, DOB, **GRO-C** 83, approximate date for transfusion June 1981

Transfusion records show a patient called Andrew Patrick had a transfusion of 4 units on  
15.06.1981

The records have no other identifiers (just first name and surname) but in view of the specific  
date given by the patient it can safely be assumed that he is the Andrew Patrick in the  
document.

I have included a copy of the blood bank register for your information. It has the donor  
numbers of the units on

814020  
811871  
815341  
815330

I hope this is useful information  
Please don't hesitate to contact me for further information

Regards

**GRO-C**
