Medical & Scientific Director,
Scottish NBTS,
Headquarters,
Ellen's Glen Road,
EDINBURGH. EH17 7QT

Dear Colleague,

ANTI HCV TESTING OF BLOOD DONATIONS - DECEMBER 1991/JANUARY 1992

I enclose tables showing the results of anti-HCV testing for December 1991 and January 1992 and have included the figures for Ireland in the tables which give details of the RIBA and QC results. I have also included tables showing the PCR results obtained so far.

Approximately 50% of all the tests are being performed with Ortho kits, 32% with Abbott and 18% with UBI. The initial reactive rates were 0.59% (Dec.) and 0.56% (Jan.) for Ortho; 0.31% (Dec.) and 0.35% (Jan.) for Abbott and 0.46% (Dec.) and 0.57% (Jan) for UBI. The corresponding repeat reactive rates were 0.42% and 0.36% (Ortho); 0.27% for both months (Abbott) and 0.4% and 0.43% for UBI. These figures are quite consistent. As might be expected the RTCs carrying out the largest number of tests have the highest number of repeatable positives, i.e. Birmingham, North London and S. Thames (Tooting).

RIBA II Results

Taking the results for the two months together 921 donors' sera were sent to reference laboratories by Ortho users and reports for 809 have been received so far, 107 (13%) were

RIBA-II positive and 201 (25%) RIBA-II indeterminate. Abbott users referred 427 samples and received reports on 362, 84(23%) were reported RIBA-II positive and 113 (31%) indeterminate. UBI users referred 359 samples and have received 224 reports, 28 (12.5%) were RIBA-II positive and 30 (13%) indeterminate. PCR results are very few to-date.

I enclose a copy of the monthly report form which I have revised and would ask you to use in future. The section regarding RIBA-II is adapted from the form in use at Glasgow devised by William Hughes. I think it shows all the information that we can reasonably hope to gather. So many sera are being referred at the moment it does not seem to be practicable to collect all the dates of birth. I hope use of the new form will make the data collection less onerous.

Many thanks for your help.

Yours sincerely,

GRO-C

V.I. RAWLINSON
Principal Scientific Officer

Enc.
