With regard to previous correspondence regarding the above the PCT is seeking some further clarification.

It is understood by all parties that the decision not to supply Nicholas with Recombinant was taken in line with the national guidance and the consortia guidelines. However the PCT would like clarification as to whether, if supplies were available, there would be a clinical benefit for Nicholas to receive Recombinant.

There is at present no clear indication as to whether a summons for judicial review will be issued. Please could you give me a ring at a time convenient to you to discuss this matter as the PCT's solicitor wish to make a full response to Nicholas's solicitors.

Thanks in advance for your time and expertise.
