To: Professor Christine Lee  
Subject: Recombinant

Dear Prof. Lee,

Dan and I have just returned from several weeks in America, and I have found (on my email) a press release from the Haemophilia Society about the supply of recombinant to all haemophiliacs over the next three years. I have written to the CEO of the Barnet Health Authority who I have been in contact with over the past couple of years whilst fighting for recomb. for Nick enclosing a copy of the press release. I have asked that Nick get it immediately. His ankle has been playing up for a while and he really should be treating himself prophylactically which he won't do whilst on plasma derived treatment. I gather that a letter from the patient's clinician may really speed things up so could you possibly write in support of this to:

Ms. Averil Dongworth  
Chief Executive  
Barnet NHS Primary Care Trust  
Hyde House  
6th Floor, The Hyde  
Edgware Road, London, NW9 6QQ

Nick and I would be so grateful.

Kind regards,  
Della

*Sonja - can you email back → file.*

*It is my expectation that this will  
be phased in soon and that Nick will  
be one of the first patients to be changed.*
