Dear David

FACTOR VIII CONCENTRATES : RESEARCH : NIBSC

You will wish to know that CVP is at an advanced stage in establishing a joint venture with NIBSC. The area covered is immunosuppressive properties of Factor VIII concentrates. Chris is using his own budget for this work, which could have a significant impact on our future strategies for Factor VIII concentrates.

I have asked Chris to produce a note for the Board. This project is not just about Factor VIII. It will cement our relations with NIBSC.

Kindest regards

Yours sincerely

GRO-C
