HAEMOPHILIA AND HIV INFECTION

MS(H)'s office have asked for a note, which the Whip's office have requested for distribution to Government back bench MPs. I attach a draft and would be grateful for your comments. The note should be regarded as going into the public domain, and we need to be sure that there is nothing in it which could be regarded as contempt, or otherwise troublesome. Please may we have your comments by 4 pm today, as we need to submit the note to MS(H)'s office on Thursday morning.
