Miss J. Spooner,
Oxford Haemophilia Centre,
Churchill Hospital,
Headington,
OXFORD.

Dear Miss Spooner,

Trials of 'Hepatitis Reduced' Factor VIII- An Update

I have received the circular of 29th March.

As you know most of our patients have been treated exclusively with SNBTS FVIII. I am therefore very reluctant to consider using any of our patients as trial subjects for any of the commercial hepatitis reduced FVIII concentrates. As you probably know we have been testing a new higher purity heat treated SNBTS FVIII concentrate and at present I should like to reserve any patients we may have for this product.

Yours sincerely,

GRO-C

C.A.Ludlam
Consultant Haematologist
