Dr. John Cash,
Medical Director,
Scottish National Blood Transfusion Service,
Headquarters Unit, Ellen's Glen Road,
Edinburgh EH17 7QT.

Dear John,

Thank you very much for your letter about SNETS heat-treated factor VIII. Of course this situation is now a little different from last year. Not only are all our regulars HTLV III antibody positive, but most of the others are being used to assess BPL heat-treated material. When Frank lets me know the requirements, I will re-assess our ability to help.

With all best wishes,

Yours sincerely,

GRO-C

A.L. Bloom.
