

**Yellow Card****Making medicines and medical devices safer**[Sign in or register](#)[Search site](#)[Information](#)[Case Studies](#)[What is being reported](#)[Resources](#)[Latest News](#)[Campaigns](#)[Biobank](#)[Contact us](#)

Welcome to the Yellow Card reporting site

Report suspected side effects to medicines, vaccines, e-cigarettes, medical device incidents, defective or falsified (fake) products to the Medicines and Healthcare products Regulatory Agency to ensure safe and effective use.

Find the medicine / vaccine / device you wish to report.

[Start report](#)

Use the [Coronavirus Yellow Card reporting site](#) to report suspected side effects to medicines and vaccines or medical device and diagnostic adverse incidents used in coronavirus treatment.

Reporting as a manufacturer, marketing authorisation holder or other non-patient or health professional for a medical device adverse incident, fake or defective healthcare product? See our [reporting guidance page](#).

Worried about your health?

Speak to your doctor, pharmacist or to call [NHS 111](#) if you are worried about your health. If you're deaf and want to use the phone service, you can use the NHS 111 British Sign Language service available in your [country](#).

We are unable to provide you with medical advice.

Always read the patient information leaflet, or instructions supplied with your medicine or medical device. It lists the known side effects or problems and advises you on what to do.

Improving the Yellow Card reporting site

Welcome to the improved Yellow Card reporting site. Our interactive Drug Analysis Profiles (iDAPs) are now under '[What is being reported](#)', this includes COVID-19 vaccine reports.

We will be continuing to improve our new website platform with enhancements based on user feedback to give you a better, more tailored and transparent reporting experience. Future upgrades will offer new features such as:

- technology that helps keep you up-to-date with your report as it progresses through MHRA review process and enables you to update your reports.
- easier access to real-time safety communications and control over alerts, allowing you to switch on and off relevant safety communications.
- the ability to manage information about healthcare products via a product watch list.
- visualisation of data that will allow you to view information in a more user friendly, accessible way.
- for frequent reporters, a search functionality that will allow your previous reports to be found easily.

We welcome your [feedback](#).

Please note that where possible, the MHRA asks and encourages all Yellow Card reports to be sent electronically instead of paper forms.

Download the Yellow Card app

Create medicines watch lists, get news and alerts from the MHRA, and also report using the Yellow Card app. The app is available to download from the [Apple App Store](#), or [Google Play Store](#) and you can use your Yellow Card website account details on the app to report.

If you have any comments on the app please [contact us](#).
