RE: KOATE HP STUDY 0101.

Please find enclosed a copy of the phase I analysis and interim report for the above study.

I currently have all case record folders from Dr. Winter (Margate) in-house and I am hoping to collect the remainder from St. Thomas's at the end of August.

I feel that a meeting would be useful to discuss the reporting of this study, involving both Drs. Savidge and Winter. Perhaps you could let me know your planned time schedule for the study as I am a little unsure what we decided at our last meeting. If you are in agreement I will then go ahead and arrange a meeting:

Regards.

GRO-C

Miss Claire L. Sully,
Clinical Research Associate.
