

ONE DAY COURSE ON HAEMOPHILIA AND HIV INFECTION.

The Armitage Centre, University of Manchester.
The Firs Athletic Ground, Fallowfield, Manchester.

January 15th 1988.

Dear Dr. Lane,

There will be a further one day course on Haemophilia and HIV infection organised by the Reference Centre Directors. The course is aimed at all Health Care Workers involved in the care of such patients. We very much hope you will be able to attend and encourage other members of your staff to attend also. We have put together an interesting programme which will ensure an up to the minute account of the present situation. The programme will also include advice on counselling in special situations and information on therapeutic approaches.

Please return the tear-off slip to Mrs O Redding, Haemophilia Co-ordinator, Department of Clinical Haematology, The Royal Infirmary, Manchester M13 9WL, together with a registration fee of Five Pounds per person. Morning coffee, lunch and afternoon tea will be included.

Yours sincerely

GRO-C

I W. DEIAMORE
Physician in Charge
