PAPERS: SELF SUFFICIENCY IN BLOOD PRODUCTS

Zubeda

I am sure it is worthwhile asking the people you have identified (if they are still alive) to check the accuracy of the report in confidence. I know you haven't suggested this, but I would steer well clear of the Haemophilia Society. On the submission:

page 3, first bullet point in para 12 - suggest RTCs and BPL

On the report, the only thought I had is that the summary and conclusions overlap - do you need both? There is also repetition in the summary between the last para and the first para on page 4. Otherwise it looked OK to me.

Subject: REVIEW OF
PAPERS: SELF SUFFICIENCY IN BLOOD PRODUCTS

Peter,

I hope you don't mind me contacting you about this issue.

I think I recall you saying that you did not mind commenting on the final draft copy of the review of papers on self sufficiency in blood products. A draft copy of the report is attached together with a copy of a draft submission. We are currently sending this report in confidence to key people to comment on factual accuracy: Frank Hill (Chair of UKHCDO), Jane Martin at BPL, Terry Snape(former Medical Director at BPL whom you interviewed), and the Chief Executive of NBA. We are also considering sending the report to Prof Arie Zukerman at the Royal Free and Dr John Craske who are quoted in the report.

It would be helpful to have any comments you have by Friday 20 May if possible. We would like to submit this report as soon as possible to Ministers with a recommendation that the report should be published.

Thanks for your help.

Zubeda
