att. mr. nicholson

re: your telex no. GRO-C of dec. 19, 1984

dear mr. nicholson,

1. thank you for your statement on kryobulin tim 2 multipacks.

2. we have again discussed the issue of printing a u.k. only 'neutral english' pack insert and think that the possibility of claims that may be made by one or the other doctor would not justify the additional costs arising from the printing of 2 different neutral english pack inserts. besides we hope that the product license will be granted within soon and we will then have to prepare a u.k. pack insert anyway. since we are free to use any pack insert as long as the product is only sold on a doctor/named patient basis we would prefer to use our standard neutral english pack insert for the time being.

kind regards
mrs. diernhofer/mrs. henninger/hb
licensing department
