

Thursday, 9 May 2019

1  
2 (12.03 pm)  
3 **SIR BRIAN LANGSTAFF:** Our next witness wishes to be known  
4 as Steven, does he?  
5 **MS FRASER BUTLIN:** That's correct, Steven Carroll.  
6 **SIR BRIAN LANGSTAFF:** In his case, at his request, there  
7 will be no live streamed images of him. You will see  
8 in the hearing room him give his evidence. What he  
9 says will be on the transcript. There is no secret  
10 about his name but he will not have his image taken.  
11 So, please, if you are around and outside this room,  
12 obviously, are using your phone, make sure you do not  
13 take any image of him, please.

14 **STEVEN CARROLL, affirmed**

15 **Questioned by MS FRASER BUTLIN**

16 **A. Can I just thank Sir Brian as well for saying that for**  
17 **my images. Thank you.**  
18 **Also can I just -- I'd like to say how brave**  
19 **Della and Dan were in their evidence before.**  
20 **I thought it was really courageous and, you know, it**  
21 **gives people like myself the opportunity to be**  
22 **courageous. So, yes, thank you.**  
23 Q. Steven, you were diagnosed with severe haemophilia A  
24 when you were about 15 months old.  
25 **A. That's correct.**

1 mother was that she wasn't told that you'd tested  
2 positive for HIV until about 1985 or 1986?  
3 **A. Yes, that's what I understand. Yes, that's what she**  
4 **told me when we discussed it.**  
5 Q. As you said, sadly, your mother has now passed away.  
6 **A. Yes.**  
7 Q. So you are not very sure what she was told but you  
8 think she was told, either then or subsequently by  
9 a social worker, that your life expectancy would be  
10 shortened and you were more at risk of infection and  
11 illness?  
12 **A. That's correct, yes. That was what my Mum had related**  
13 **to me once she had told me that I'd been infected,**  
14 **yes.**  
15 Q. That was really the limit of what she was told at that  
16 point?  
17 **A. Yes. My Dad has a slightly different recollection of**  
18 **it. His was that -- my Dad came out of that room and**  
19 **he said [redacted] after he came out the room with the**  
20 **social worker at that time because in some way he**  
21 **blamed himself. I'm not quite sure why that was but,**  
22 **yes, he felt that the information they received was**  
23 **particularly unhelpful and didn't really offer them**  
24 **the support that they probably needed actually.**  
25 Q. How did you find out that you were HIV positive?

1 Q. Initially you were treated with cryoprecipitate.  
2 **A. Yes.**  
3 Q. Then in the late 1970s/early 1980s when you were about  
4 two or three you were given Factor VIII.  
5 **A. That's correct.**  
6 Q. Are you aware of your mother being told anything of  
7 the risks involved in the change to your treatment?  
8 **A. Not that I'm aware of, no, unfortunately, and my**  
9 **mother's no longer alive for me to obtain that**  
10 **information since the inquiry started, so ...**  
11 Q. At first you received your Factor VIII in hospital?  
12 **A. That's correct.**  
13 Q. Then when you were about seven or eight your Mum was  
14 taught to administer it at home.  
15 **A. I believe so, yes. It was around that time. It's**  
16 **a little bit vague, foggy but, yes, it's around that**  
17 **time.**  
18 Q. Paul, could we have document 1139002, please.  
19 If you look in front of you, the document is on  
20 the screen so you can see exactly what we are all  
21 seeing.  
22 On 18 June 1984, a blood sample was taken from  
23 you and you tested positive for HIV; is that right?  
24 **A. Yes, that would appear right, yes.**  
25 Q. But your recollection and your understanding from your

1 **A. So I found out when I was 13. My Mum had taken me to**  
2 **a medical for -- a Department of Work and Pensions**  
3 **medical. I believe it was for an application for**  
4 **Disability Living Allowance and my Mum and the doctor**  
5 **were talking and I recalled my Mum saying HIV and**  
6 **that's how I kind of remember hearing it for the first**  
7 **time. I don't recall hearing it before then,**  
8 **although, that being said, there was stuff in my**  
9 **family that had changed prior to that, the way that my**  
10 **parents had treated me and stuff like that. That**  
11 **became apparent earlier now looking back.**  
12 **But, yes, that's how I initially heard and then**  
13 **a few weeks later I was reading an article in the**  
14 **newspaper and there was a TV personality's son had**  
15 **died from AIDS and I said to my Mum, "That's what I've**  
16 **got, isn't it", and she went, "Yeah, yeah".**  
17 Q. At about the same time you were going through puberty,  
18 noticing girls.  
19 **A. Yes.**  
20 Q. So your Mum booked an appointment for you to talk to  
21 a doctor about your diagnosis?  
22 **A. Yes.**  
23 Q. Can you tell us about that?  
24 **A. I remember going to -- my care was under the**  
25 **Hammersmith at the time and I remember seeing a doctor**

5

1 that I'd never seen before and I don't recall ever  
 2 seeing again actually, and we sat down and we started  
 3 to have a conversation but, obviously, sexual  
 4 transmission and that kind of stuff and, yeah, and the  
 5 way it was conveyed was -- well, the way I left the  
 6 meeting was I felt that I was a danger to people and  
 7 that, you know, it was probably a better idea for me  
 8 to just avoid that whole scenario of getting involved  
 9 with girls and stuff like that. It just -- my worst  
 10 nightmare would have been to infect someone else.

11 Q. You were 13.  
 12 A. Yes.  
 13 Q. You were at that meeting on your own?  
 14 A. That's correct, yes.  
 15 Q. Without your parents?  
 16 A. I don't recall my Mum being there actually, no.  
 17 Q. With a doctor who you'd never seen before and, as far  
 18 as you are aware, you weren't treated by again?  
 19 A. No, I don't think so.  
 20 Q. What did that doctor tell you about your life  
 21 expectancy as well?  
 22 A. He implied that my life expectancy would be shorter  
 23 and that I'd probably had four or five years to live  
 24 and that, basically, if I had anything that I wanted  
 25 to do I should go and do it because my time was going

7

1 about hepatitis C, how to manage it and the risks  
 2 involved?  
 3 A. No, none at all.  
 4 Q. You said that you reacted very badly to the news at  
 5 13 --  
 6 A. Yes.  
 7 Q. -- that you had four to five years to live.  
 8 A. Yes.  
 9 Q. You in fact left school at that point.  
 10 A. Yes, I kind of made a conscious decision that I wasn't  
 11 going to be alive long enough to use an education, so  
 12 what was the point of having one? You know, and it's  
 13 probably one of the regrets that I have today,  
 14 actually, that I threw away the opportunity for  
 15 a really good education, actually, because I'd worked  
 16 really hard to get into quite a prestigious secondary  
 17 school, my teachers had quite high hopes for me, you  
 18 know, they spoke about Oxford and Cambridge and  
 19 I would have been the first member of my family to go  
 20 to university had that transpired.  
 21 Yeah, it's one of my regrets actually but, you  
 22 know, given the information that I was given at the  
 23 time there was a lot I wanted to do and I was a really  
 24 angry young man at 13, actually, because of it.  
 25 Q. How did that anger express itself?

6

1 to be limited.  
 2 That was particularly difficult for -- you know,  
 3 I don't know any 13-year old that would have had the  
 4 emotional intelligence to be able to comprehend what  
 5 that meant, you know, and it influenced every major  
 6 decision I made in my life thereafter, you know, and  
 7 I made some bad choices along the way. But, you know,  
 8 it certainly had a massive impact on me. You know,  
 9 I would fail to articulate actually the impact it had  
 10 on me.  
 11 Q. Your mother was also told at some point that you had  
 12 hepatitis C.  
 13 A. That's correct.  
 14 Q. But you're not entirely sure when that was.  
 15 A. I don't recall when that was, but I was actually told  
 16 that in a very off-the-cuff kind of way.  
 17 Q. Can you tell us how you were told?  
 18 A. I was in a routine appointment with a haematologist  
 19 and he looked through my records and he said, "Oh,  
 20 you've got hepatitis C as well", and for some reason  
 21 I'd already known that. I'm not sure how I really  
 22 knew that but I went, "Yeah, it's okay, I already know  
 23 that", and that was the end of the conversation. Not  
 24 really understanding the magnitude of it really.  
 25 Q. As far as you're aware, were you given any information

8

1 A. Firstly, I took to my bed for a year and played the  
 2 Megadrive for an obscene amount of hours and then  
 3 I was quite, you know, I was quite a smart kid and  
 4 where I grew up from I grew up on a council estate,  
 5 you know, and I grew up quite poor. So our financial  
 6 situation was not great, so where I come from, if you  
 7 want money, you have to go and do certain things to  
 8 earn that money and in my world money creates choices  
 9 and then I could do what I wanted to do; so that was  
 10 kind of what I chose to do.  
 11 Q. You went off the rails for about five or seven years.  
 12 A. Yes, maybe a bit longer than that but certainly  
 13 I started doing things at about 14 or 15 that a 14 or  
 14 15-year old shouldn't have been doing. I engaged in  
 15 some criminal activity. Yeah, and you know it  
 16 afforded me the choices to do what I wanted to do with  
 17 my life, and what it done, it gave me the opportunity  
 18 to regain some power, actually, because I'd felt that  
 19 all my power and all my choices had been taken away  
 20 from me, and what it did do is it gave me the  
 21 opportunity to exert some power and some control and  
 22 actually to be angry towards society because I felt  
 23 that I carried huge amounts of societal shame for  
 24 many, many years.  
 25 Yeah, and I turned all the anger inwards

1 **actually. I actually despised who I was.**  
 2 Q. You have said that in engaging in that criminal  
 3 activity you wanted to have killed yourself before the  
 4 infections killed you?  
 5 **A. Yes. So I got to a certain point where I couldn't**  
 6 **cope with the internal conflict that was going on**  
 7 **inside me and I wanted to -- I wanted to die on my own**  
 8 **terms and I turned to drugs and alcohol and they**  
 9 **provided me with a certain amount of ease and comfort**  
 10 **for a little while. But I always had it in the back**  
 11 **of my mind that they would, should I need them to,**  
 12 **they would do the job for me. I wanted to die before**  
 13 **I became symptomatic actually, because that would have**  
 14 **been, where I grew up and where I come from, that**  
 15 **would have been extremely difficult.**  
 16 **My HIV status was the family secret and it would**  
 17 **have been very difficult where we grew up for that to**  
 18 **have become public knowledge, yeah.**  
 19 Q. At the age of 15 you decided you would never have  
 20 children?  
 21 **A. That's correct, yes.**  
 22 Q. What was going through your mind?  
 23 **A. I'd started to have relationships with girls by then**  
 24 **and, you know, the sheer terror of not being able to**  
 25 **share that information with them, you know, filled me**

1 **and how old I was I kind of figured out it probably**  
 2 **wasn't going to kill me, yeah, and I kind of made the**  
 3 **decision to, kind of, change my life slightly then.**  
 4 **I didn't change it completely, I'd be perfectly honest**  
 5 **about that, but I stopped doing a lot of what I was**  
 6 **doing and tried to integrate back into society to some**  
 7 **degree and, you know, I had reasonable -- you know,**  
 8 **I met a girl, we moved in together, you know, stuff,**  
 9 **that kind of fluffy stuff that happens, yeah.**  
 10 Q. That was the beginning for you, wasn't it, of  
 11 a gradual, a very long and very gradual process of, as  
 12 you say, reintegrating and coming to terms a little  
 13 bit with what did had happened.  
 14 **A. Yes, I had a -- yeah. I mean, coinciding with that my**  
 15 **Mum had been diagnosed with cancer many times**  
 16 **throughout my adolescence and she got sick again in my**  
 17 **early 20s and my Mum had been, through all of my**  
 18 **medical stuff, had been kind of my one rock and as she**  
 19 **got sicker and sicker and sicker I couldn't cope with**  
 20 **the way that I felt and I went back to some of the**  
 21 **substances that I had used previously, hoping they'd**  
 22 **do for me what they'd done for me before, which was**  
 23 **make my reality more bearable, and they didn't, and**  
 24 **when my Mum died I was left in a worse position than**  
 25 **I had ever been, and the time-line on my suicide**

1 **full of ... do you know what, I can't even articulate**  
 2 **how it made me feel.**  
 3 Q. You have said in your statement:  
 4 "I felt I had no choice in the decision I made  
 5 because I was worried and scared that I'd put the  
 6 children at risk. I also believed I wouldn't live  
 7 long enough to raise them."  
 8 **A. And that was my belief at that time, yeah. That was**  
 9 **my belief at that time and it's one, in all the work**  
 10 **I've done on myself over the years, it's the one thing**  
 11 **that I've never been able to change, unfortunately.**  
 12 **Even today my last relationship ended because I was**  
 13 **not prepared to have children, yeah.**  
 14 Q. That spiral of criminal activity and mental health  
 15 difficulties continued for a number of years?  
 16 **A. They did, yes, correct.**  
 17 Q. When you were about 21, you made an attempt on your  
 18 life?  
 19 **A. I did, yeah.**  
 20 Q. You also at about 21 had a cardiac event at your  
 21 parents' house?  
 22 **A. That's correct.**  
 23 Q. At that point, you realised that perhaps the HIV  
 24 wasn't going to kill you?  
 25 **A. Yes, I -- you know, given what the doctors had told me**

1 **attempt was then, yeah, and ... yeah, my loving**  
 2 **girlfriend at the time took me to the local mental**  
 3 **hospital because I was clearly a little bit crazy, you**  
 4 **know, and they took me in there and pumped me full of**  
 5 **really nice drugs that make you feel nothing, and it**  
 6 **was there that I kind of decided, "You know what,**  
 7 **I can't do this anymore. I'm going to destroy**  
 8 **myself", yeah, and I made a decision that I wanted to**  
 9 **change my life from then on and that's what I've tried**  
 10 **to do since then.**  
 11 Q. Can you tell us about the physical effects of the HIV  
 12 on you.  
 13 **A. So I would have all the recognised side effects for**  
 14 **someone who's had HIV as long as I have. I have**  
 15 **chronic insomnia; I have chronic fatigue; I have**  
 16 **generalised anxiety disorder, you know, the list is**  
 17 **extensive. They are the three ones that cause me the**  
 18 **most difficulties today.**  
 19 **Social interaction is particularly difficult for**  
 20 **me. You know, this is a very big arena for me to be**  
 21 **around but, yeah, some of them cause me -- they come**  
 22 **in waves, you know. Some days are better than others.**  
 23 Q. Alongside that the hepatitis C has caused chronic  
 24 fatigue?  
 25 **A. Yeah.**

13

- 1 Q. You have had a variety of treatments over the years.  
2 If we start off with the HIV --
- 3 **A. Yes.**
- 4 Q. What can you tell us about the side effects of your  
5 treatment with AZT that you had in your late teens.  
6 You had it in combination with some other medication.
- 7 **A. Yeah, I think my first combination was -- I want to  
8 say it was eight or twelve pills a day and I ... it  
9 completely just, it wiped me out is the best way I can  
10 describe it. You know, I found it difficult to keep  
11 food down. I found it difficult to keep water down at  
12 some times. I broke out in something called  
13 a nevirapine rash, and that is probably the most  
14 difficult side effect that I had experienced in my  
15 early combinations because it made me look like  
16 crocodile man. All my skin was very flaky and, you  
17 know, people would move away from me on public  
18 transport and if that didn't, you know, it just  
19 impounded and made worse the societal shame that I'd  
20 carried for all those years because, you know, there  
21 was actually people physically manifesting that to me  
22 that, as it goes, you know what, you need to stay away  
23 from this guy.**
- 24 Q. After a couple of years on that combination you  
25 changed combinations but you continued to suffer

15

- 1 Q. Can you talk to us about that.
- 2 **A. Yeah, so I used to go quite a nice colour in the sun  
3 and now I just go bright red so I look like bit of  
4 a lobster and it's very weird because it doesn't --  
5 there's no -- like it doesn't show up on any of the  
6 fact sheets or anything like that but this only  
7 started since I started taking this medication. So,  
8 you know, I kind of am -- it can be the only thing  
9 that it is, in my opinion, you know, and I'm not  
10 a scientist and I'm not a doctor but logic would tell  
11 me that something starts there, you know. That's  
12 probably what the cause is.**
- 13 Q. That's caused you quite a lot of emotional distress.
- 14 **A. Yes. It shut me down for about a year. I didn't want  
15 to leave the house. Yeah, the amount of shame that  
16 I carried around that was horrendous and it just  
17 paralysed me and, again, I just started playing the  
18 Play Station. That seems to be my coping mechanism at  
19 times but, yeah, it kept me very isolated is what I'm  
20 trying to say.**
- 21 Q. You've also had treatment for the hepatitis C.
- 22 **A. I have.**
- 23 Q. You started that at the end of 2017 and you've cleared  
24 the virus?
- 25 **A. Mm-hm.**

14

- 1 several -- quite a bit of side effects from those  
2 drugs?
- 3 **A. Yes. I've had side effects from all the drugs I've  
4 taken until probably the second from last combination  
5 that I had taken and they've all -- they've all given  
6 me different kinds of side effects but they all bring  
7 me back to the same place where I'm kind of just left  
8 not being able to do or live my life the way that  
9 I want to, yeah, and that's quite sad actually.**
- 10 Q. You say you consider that all the treatment you've had  
11 over the years has worked if you don't include the  
12 side effects.
- 13 **A. It has and I've got to say, you know, the care that  
14 I have from my current HIV doctor has been exemplary.  
15 He's one of the best doctors I've ever had and he was  
16 actually the first doctor that ever acknowledged to me  
17 that what happened was wrong and I can't tell you the  
18 healing that took place in that. There was so much  
19 healing that took place in his acknowledgement that  
20 what happened was wrong. Yeah, and I have so much  
21 respect for him as a doctor and as a human being as  
22 well.**
- 23 Q. More recently you've started another new drug and your  
24 skin has changed.
- 25 **A. Yes.**

16

- 1 Q. Why didn't you have interferon treatment earlier?
- 2 **A. So in the late 1990s I met with a doctor and he was  
3 quite insistent that I go on interferon. I'd done  
4 a little bit of research around hepatitis C before  
5 going to see this doctor, given what had happened to  
6 me in the past, and I knew that I was never going to  
7 go on to interferon. I'd had too much information  
8 about the damage it had caused and the side effects it  
9 had caused and I point blank refused to go on  
10 interferon and -- yeah, I was not met with the most,  
11 you know, active kind of -- he wasn't open to my idea  
12 because he was a professor of such and such and I was  
13 just a patient, really.**
- 14 **But yeah I point blank refused and they tried  
15 several times. They were quite aggressive in their  
16 approach with that actually, in trying to get me to go  
17 on an interferon-based hepatitis C treatment. My  
18 chances of clearing it were something like 6 per cent  
19 and I was like for the amount of side effects that  
20 you're talking about, 6 per cent, I'm not going to --  
21 no, and I just refused.**
- 22 Q. Then later on the hospital wanted to put you on  
23 a trial which did include interferon again.
- 24 **A. Yes.**
- 25 Q. And you refused again.

17

- 1 **A. That's correct.**  
 2 Q. You've had some difficulties accessing other medical  
 3 care, particularly dental care.  
 4 **A. Yes.**  
 5 Q. What can you tell us about that?  
 6 **A. I remember being a child and my Mum finding it really**  
 7 **difficult for her to find a dentist for me to go to**  
 8 **and then that continued into my adolescence and when**  
 9 **I started to take care of my own kind of medical**  
 10 **needs, I found it so difficult to find a dentist that**  
 11 **would treat me, and they would say that it was because**  
 12 **their books were full. But I met one dentist who was**  
 13 **a particularly kind man, actually, and he said to me,**  
 14 **"Look, that's probably not the truth", and he wrote me**  
 15 **a letter for a community dentist and if it hadn't have**  
 16 **been for him, actually, I don't think I'd have ever**  
 17 **received any proper dental care, but he wrote them**  
 18 **a letter expressing he thought it was an outrage that**  
 19 **I wasn't offered the dental care that someone in my**  
 20 **position needs, and the community dentist took me on**  
 21 **and I've been seeing them since, yeah.**  
 22 Q. You've said a few things about your mental health and  
 23 the real challenges you faced, both before you had the  
 24 treatment and during the treatments that you've had.  
 25 **A. Yes.**

19

- 1 **recently from the English Infected Blood Support**  
 2 **Scheme for £900, and I've got to say I find it rather**  
 3 **insulting that they believe that that is enough money**  
 4 **to deal with the amount of emotional trauma that has**  
 5 **been caused by this.**  
 6 Q. In fact, the therapist kindly reduced their fee  
 7 considerably to try and maximise the amount of therapy  
 8 you could have for that money?  
 9 **A. Yes, that's correct. Her normal fee is £200 an hour**  
 10 **and she reduced it to 100 for me and, since then, I've**  
 11 **said to her that I might have to stop because of my**  
 12 **financial situation, and she has agreed to (if I want**  
 13 **to, which is very hard for me because I'm quite**  
 14 **a prideful man) to see me for free for a little while**  
 15 **because she believes I deserve the opportunity to get**  
 16 **through this and it not be the bag that I carry around**  
 17 **with me for the rest of my life.**  
 18 Q. Because those mental health difficulties have  
 19 continued, and do continue, today?  
 20 **A. Yes, and they get progressively worse.**  
 21 Q. Can you face telling us a little bit of how you are  
 22 now?  
 23 **A. Do you know what, I started seeing this new therapist**  
 24 **at the end of last year and she's unlocked something**  
 25 **in me and she's given me the opportunity to get**

18

- 1 Q. Were you ever offered any emotional or psychological  
 2 support?  
 3 **A. No.**  
 4 Q. But you have accessed some private therapy.  
 5 **A. That's correct.**  
 6 Q. Can you tell us about that.  
 7 **A. Yes. So I have been fortunate enough to use some of**  
 8 **the money that Macfarlane Trust provided for me to put**  
 9 **towards my own therapy because for me it was about I**  
 10 **needed to get comfortable with my emotional world and**  
 11 **my understanding of the complexity of the trauma that**  
 12 **had actually happened and, you know, I banged my head**  
 13 **against a wall with the local community mental health**  
 14 **service for a few years and their solution was to put**  
 15 **me on medication and, you know, that's a bandaaid to**  
 16 **a wound that needs deep cleaning and stitching and**  
 17 **stuff like that and pills don't provide that, you**  
 18 **know.**  
 19 **Given the opportunity to talk about how I felt**  
 20 **when I was 13 and, you know, that kind of stuff works**  
 21 **for me and I've engaged in -- in the last 15 years**  
 22 **I've had 12 years of therapy funded primarily by**  
 23 **myself.**  
 24 **I've had two grants, one from the**  
 25 **Macfarlane Trust which was for £1,200, and I had one**

20

- 1 **comfortable with my emotional world, and I've realised**  
 2 **that actually the shame that I carried is not mine, it**  
 3 **belongs to society, and the stigma that I carried as**  
 4 **well that, belongs to society. They're not mine. And**  
 5 **the process I'm in at the moment is trying to give**  
 6 **some of that back to society, you know, because it**  
 7 **doesn't belong to me.**  
 8 Q. You continue to suffer from depression?  
 9 **A. Yes.**  
 10 Q. Anxiety?  
 11 **A. Yes.**  
 12 Q. And OCD?  
 13 **A. Yes, my OCD, funny enough, in the lead-up to this, has**  
 14 **gone off the chart. You know, I'm doing new things**  
 15 **that I've never done before and I'd got it to a point**  
 16 **where it was manageable and it's become very, very**  
 17 **unmanageable in the last ... last six months,**  
 18 **actually. Actually, maybe before that. My fear kind**  
 19 **of started again when the NHS Business Services**  
 20 **Authority and the EIBSS took over. I was extremely**  
 21 **uncomfortable with that arrangement.**  
 22 Q. What were your particular concerns?  
 23 **A. The Trust were not a perfect solution to the problem,**  
 24 **yeah, but I felt like an individual and I think when**  
 25 **you're amalgamated into one of the biggest employers**

1 in the UK you become a number and I don't want to be  
 2 a number. I deserve to be a human being and a person  
 3 and, yeah, my dealings with them have not been good.  
 4 Q. We'll come to the detail of that a little bit later,  
 5 but that was what was causing you considerable fear  
 6 and anxiety when the transition happened?  
 7 A. Yes, and the changes in the benefit system as well,  
 8 yeah.  
 9 Q. You've also struggled throughout in relation to your  
 10 personal relationships and in sexual relationships?  
 11 A. Yes.  
 12 Q. You've described them as becoming highly  
 13 anxiety-inducing.  
 14 A. Yes. I was scared of women for a long time and I --  
 15 you know, I grew up in a household full of women.  
 16 I love women. You know, they're fantastic. But,  
 17 yeah, it was -- being 13 and thinking that if you  
 18 touched them, kissed them that you're going to kill  
 19 them is very difficult and that was the knowledge that  
 20 I had at the time.  
 21 You know, subsequently, when I did get into  
 22 relationships a little bit later on in my mid-teens,  
 23 you know, I became -- I became someone I wasn't in my  
 24 mid-teens, let's put it that way, and that attracted  
 25 certain kinds of women, you know.

1 Big Brother house, you're attracted to people you'd  
 2 never be attracted to. But she -- you know, she was  
 3 my cup of tea, that's the simplest way I can put it,  
 4 and we formed a really close relationship.  
 5 I left treatment, she left treatment, we went  
 6 our separate ways and she called me about a year later  
 7 and said, "Look, I fell in love with you. Can we meet  
 8 up?" I went and met her and we were talking and that  
 9 and she knew my story because I'd been honest about it  
 10 in treatment. It was the very first time I'd ever  
 11 been able to be honest about that, you know, that "my  
 12 name's Steven and I'm HIV positive".  
 13 Yeah, and we were talking and we went on a few  
 14 dates and she kind of said to me -- she said, "Look",  
 15 she said, "I really love you but I can't get past  
 16 this, I can't". You know, she grew up in an era where  
 17 the stigma and the fear was rife and, yeah, it never  
 18 happened between us, yeah.  
 19 Q. You've said your infections were kept as a secret?  
 20 A. Yes, they were my family secret.  
 21 Q. Why was that? What was the sort of particular worry?  
 22 A. Well, I think if you think about the era that it was  
 23 and, you know, the red top newspapers were not  
 24 particularly complimentary about people that had that  
 25 illness at the time and society at large really

1 But sexual relations was, and still are  
 2 actually, highly anxiety-inducing. I believed at the  
 3 time that my bodily fluids would kill you; so having  
 4 sex was just ... it's meant to be a pleasurable  
 5 experience and what it turned into was a highly  
 6 traumatising, highly anxiety-inducing, fear-based  
 7 experience, and for a long time I never had -- I never  
 8 had sex without a substance in my body for that  
 9 particular reason.  
 10 Q. Initially you didn't tell anyone particularly about  
 11 your infections but then at one point particularly you  
 12 did tell one of your girlfriends --  
 13 A. That's correct.  
 14 Q. -- about your infections.  
 15 A. Yeah.  
 16 Q. What happened?  
 17 A. I -- you mean, how I told her and what I told her?  
 18 Q. You've described that "there was a girl who said she  
 19 loved me dearly" but when you told her about your  
 20 infected status, she said she couldn't carry on with  
 21 your relationship.  
 22 A. So that was a girl that I met in treatment. I went  
 23 into treatment for drug treatment and I met her in  
 24 treatment and we formed quite a close bond in  
 25 treatment, which people do -- also a bit like the

1 wasn't. You know, my main concern was is that it  
 2 started inward and spread outwards. My parents didn't  
 3 have the emotional intelligence to be able to talk  
 4 about that stuff. That's no reflection on who they  
 5 are as people. They just didn't have the information  
 6 available to them at the time that they would have  
 7 needed to to have had a reasonable conversation about  
 8 that.  
 9 My bodily fluids in the house became a major  
 10 issue, actually, around that time because the fear was  
 11 that I would infect my sisters and then that spread  
 12 outwards, you know. If the people in the community  
 13 found out, there was -- you know, there was people  
 14 that had their houses spray-painted, you know, and  
 15 I think I've got pretty broad shoulders and I don't  
 16 mind taking that stuff on my shoulders, but I wouldn't  
 17 want to inflict that on my sisters.  
 18 Q. You've talked about that fear in your home of your  
 19 bodily fluids infecting others.  
 20 A. Yes.  
 21 Q. You said in your statement that your parents became  
 22 controlling and worried about them?  
 23 A. Yes.  
 24 Q. You suffered from a lot of mouth bleeds. Being  
 25 a child, you'd just wipe the blood on the tablecloth

- 1 or your clothes?
- 2 **A. Yes.**
- 3 Q. And when that happened there was a real commotion?
- 4 **A. Yes, there's several incidences like that that I can**
- 5 **remember growing up and this is before I knew. So**
- 6 **I didn't quite understand why there was such a problem**
- 7 **going on. You know, my sisters would do it and there**
- 8 **wouldn't be any of those issues: I would do it and**
- 9 **there would be -- you know, it would be like**
- 10 **a contamination zone.**
- 11 Q. For a long time you blamed yourself for the break-down
- 12 of your parents' marriage as well?
- 13 **A. Yes, that's correct. I think the stress of -- I think**
- 14 **the stress of that period of their relationship, and**
- 15 **there was some other stuff going on that I've since**
- 16 **become aware of, but at that time I was unaware of**
- 17 **that. I think I walked away with that believing that**
- 18 **... do you know what, I thought so little of myself,**
- 19 **actually, that I thought that all the problems in our**
- 20 **household were my fault.**
- 21 Q. You never spoke about your infection with your Mum
- 22 after that first conversation?
- 23 **A. We very rarely spoke about it. I remember having**
- 24 **maybe -- excuse me -- maybe two or three more**
- 25 **conversations with in her before she passed away. My**

- 1 **years, as has my middle sister. But it's not**
- 2 **something we talk about as a family, no. That's why**
- 3 **I think it's been important for me to seek the sources**
- 4 **of support somewhere else.**
- 5 Q. You've talked about having left school at 13 --
- 6 **A. Yes.**
- 7 Q. -- and all the challenges you faced through until you
- 8 realised you needed to sort your life out, but the
- 9 lack of education has held you back considerably.
- 10 **A. Yes.**
- 11 Q. As well as your ill health, you've never been able to
- 12 work?
- 13 **A. No, no. And now I feel hugely ashamed actually saying**
- 14 **that in front of all these people.**
- 15 **Well, that's something to discuss in this week's**
- 16 **therapy.**
- 17 Q. Let's move on to --
- 18 **A. Yeah, okay. No, I'm quite happy to discuss it. It's**
- 19 **just interesting how the process works in my mind.**
- 20 **Excuse me.**
- 21 Q. In about 1991/1992 when you were about 13 your parents
- 22 received an *ex gratia* payment on your behalf.
- 23 **A. That's correct.**
- 24 Q. It was held for you until you were of age.
- 25 **A. Yes.**

- 1 **Dad is not emotionally equipped to talk about this**
- 2 **stuff.**
- 3 Q. He doesn't like to speak about it at all.
- 4 **A. No, he gets -- he is where I was 20 years ago. He is**
- 5 **extremely angry. Yeah, he's extremely angry. In**
- 6 **fact, this would be a great therapeutic process for**
- 7 **him. Trying to get him to engage in that might be**
- 8 **quite difficult but I think it would do him the world**
- 9 **of good.**
- 10 Q. Your siblings weren't told directly about your
- 11 infections.
- 12 **A. No.**
- 13 Q. But they sort of picked it up.
- 14 **A. Yes. When I had the cardiac event in my parents'**
- 15 **house, my sister, my middle sister, and her boyfriend**
- 16 **were present and obviously the ambulance men had come**
- 17 **in and very quickly my sister moved her boyfriend out**
- 18 **of the room -- very quickly -- because she knew that**
- 19 **they were going to ask certain questions that she**
- 20 **didn't particularly want him to hear in that way.**
- 21 **My older sister, her boyfriend still doesn't**
- 22 **know. They've been together 26 years. Yeah.**
- 23 **My baby sister is the most open to being able to**
- 24 **discuss that and she, you know -- she is ... yeah,**
- 25 **she's been a real source of support to me over the**

- 1 Q. You recall your parents had to sign a waiver.
- 2 **A. Yes.**
- 3 Q. What did your parents tell you about that waiver?
- 4 **A. Not too much. I just know that they were told if they**
- 5 **hadn't have signed the paper that no-one would have**
- 6 **got any of the payments that were being offered at the**
- 7 **time. So the conversations that my Mum and I had had**
- 8 **about it since were the reason that they signed the**
- 9 **paper is because they didn't want to be responsible**
- 10 **for other people, who were in worse position than**
- 11 **I was, not to receive the money that they needed to**
- 12 **receive because there were people -- you know, there**
- 13 **was lots of people dying at that time, yeah.**
- 14 Q. I think you've said that they felt under quite a bit
- 15 of pressure to sign that waiver.
- 16 **A. Yes, I think some of it was pressure from the**
- 17 **governmental department that they were dealing with at**
- 18 **the time but I think some of it was their own internal**
- 19 **moral code that they had around it as well, that**
- 20 **actually if they didn't sign it and other people**
- 21 **didn't get their money that they wouldn't have been**
- 22 **able to have done that. But it was definitely -- they**
- 23 **were definitely put under pressure from the Government**
- 24 **department.**
- 25 Q. Your father didn't want the money, did he?

29

- 1 **A. No. He called it blood money, yes. He said, "My**  
 2 **son's life hasn't got a price."**  
 3 Q. But your Mum wanted to use it to spoil you and the  
 4 family?  
 5 **A. Yes, and she did a good job.**  
 6 Q. You also have received payments, as you've said, from  
 7 the Macfarlane Trust, the EIBSS and the Skipton Fund?  
 8 **A. Yes.**  
 9 Q. Do you have any observations about the process  
 10 involved in applying to the Macfarlane Trust, to start  
 11 with?  
 12 **A. So when I first became aware of the Macfarlane Trust**  
 13 **and first applied for some money with them, the**  
 14 **process was, in my opinion, quite straightforward,**  
 15 **quite simple. I believe they did the best with what**  
 16 **they were given from Central Government, and there was**  
 17 **a time when they had slightly more sway than they did**  
 18 **later on in their existence.**  
 19 **The bottom line is the amount of money they were**  
 20 **handing out was insignificant, really, you know, and**  
 21 **to go through all the hoops that you needed to jump**  
 22 **through in order to get as little money as they were**  
 23 **offering just -- for me, I hardly claimed any of the**  
 24 **money I was entitled to because I just didn't have the**  
 25 **drive or the determination or the mental space to be**

31

- 1 **council tax benefit into consideration when allocating**  
 2 **funds to me, and I felt that that was -- I felt that**  
 3 **was unjust, actually, and I told them so. I have been**  
 4 **waiting for an email from two individuals who are**  
 5 **quite high up in the NHS Business Service Authority**  
 6 **since January to explain it and I have had nothing**  
 7 **from them.**  
 8 Q. You've said you will provide those emails to the  
 9 Inquiry after today.  
 10 **A. Yes.**  
 11 Q. Those are the questions I have for you. Is there  
 12 anything else you'd like to say?  
 13 **A. Firstly, I'm really grateful that we've had an**  
 14 **opportunity to finally say what it is that people need**  
 15 **to say. I had my own feelings around my infections**  
 16 **all tied away in a nice little box, I'd done enough**  
 17 **work around it, and I knew that we were going to get**  
 18 **nothing and I'd come to terms with that.**  
 19 **When the Prime Minister at the time stood up in**  
 20 **Parliament and said that they were going to re-look at**  
 21 **this issue, it reignited hope in me that eventually we**  
 22 **were going to get the right thing done.**  
 23 **And I am so disappointed.**  
 24 **It's set me back so far in my personal journey**  
 25 **to have that hope flashed in front of me again and**

30

- 1 **able to jump through those hoops.**  
 2 Q. You described in your statement that initially the  
 3 process of applying for financial assistance was  
 4 initially very simple but then there was a cut in  
 5 funding, as you understood it, that caused  
 6 complications and at that point there was a real  
 7 change in atmosphere and they went from being  
 8 a supportive entity to not being that way at all, and  
 9 at that point you disengaged?  
 10 **A. That's correct.**  
 11 Q. You have spoken a little bit about the change over to  
 12 the EIBSS.  
 13 **A. Yes.**  
 14 Q. Do you have any other observations that you want to  
 15 make about them?  
 16 **A. They're run like a Government department, basically.**  
 17 **The information they provide, the forms you have to**  
 18 **fill in, exactly the same as every other Government**  
 19 **department that you have to complete paperwork for.**  
 20 **And they just don't have the empathic**  
 21 **understanding of what it is that we've suffered with**  
 22 **as a community and I think it is -- you know, I've got**  
 23 **an email chain that -- you know, we're talking about**  
 24 **a very insignificant amount of money. Basically,**  
 25 **I live with my father and they took his ESA and his**

32

- 1 **then to have it removed and not fulfilled. It has**  
 2 **been really difficult, and I think that's the -- for**  
 3 **me, that's the most difficult thing in this whole**  
 4 **process. I'm quite a straightforward,**  
 5 **straight-talking kind of guy and I would just prefer**  
 6 **for people just to talk straight and not talking**  
 7 **gobbledegook, political speak, all that stuff, you**  
 8 **know. Don't say one thing and do something else.**  
 9 **You've got no integrity when you do that, and I just**  
 10 **lose faith in people once their integrity has gone.**  
 11 **You know, I try and live my life that way today,**  
 12 **that I have a bit of integrity, and I just wish that**  
 13 **the people that are supposed to serve us (because**  
 14 **that's what they are supposed to do, is serve us) did**  
 15 **that because it would just make the process so much**  
 16 **easier. If you just come out and say, "No, you're not**  
 17 **getting nothing and that's the end of it", cool.**  
 18 **I can go away and work on that and come to terms with**  
 19 **it.**  
 20 **But don't keep drip-feeding me hope and, you**  
 21 **know, something that you're not going to follow**  
 22 **through on, you know. Accountability and**  
 23 **responsibility is really important. You know, if I do**  
 24 **something wrong, I'm held accountable for it and**  
 25 **I take responsibility for it. There's been a complete**

1 lack of that.  
2 But, yeah, I just would like to thank everyone  
3 really for giving us the opportunity to speak today.  
4 Q. I am just going to ask -- sorry, go on.  
5 A. Go on, no.  
6 Q. I'm just going to ask Mr Snowden, who represents you,  
7 whether say there's anything he wants to put to you.  
8 A. Yeah, cool.  
9 (Pause)  
10 Q. He has nothing else that he wants me to raise with  
11 you.  
12 SIR BRIAN LANGSTAFF: There is just one matter which  
13 I want to ask you about and I'm sorry that it's about  
14 money. You did say that when you got £1,200 and then  
15 £900 to help with the cost of counselling that you  
16 thought that was something of an insult.  
17 A. Yes.  
18 SIR BRIAN LANGSTAFF: You have had counselling for  
19 12 years, you've paid for it yourself.  
20 A. Yes.  
21 SIR BRIAN LANGSTAFF: Can you give me just a sense of  
22 roughly how much you have paid out of your own  
23 resources to achieve counselling?  
24 A. So in the last 12 years I would estimate it's close to  
25 £30,000. And granted that money has come from

1 payments from the certain different kinds of trust but  
2 it hasn't been allocated for the psychological  
3 support, it's been allocated to make my life -- to  
4 give me the benefits of living a healthier life and  
5 eat well and that kind of stuff, the stuff that the  
6 money's made available for. But I've chosen to use  
7 some of it towards my emotional well-being because  
8 I feel that's very important.  
9 SIR BRIAN LANGSTAFF: So this was a grant of less than  
10 8 per cent of what it actually cost you?  
11 A. Yes.  
12 SIR BRIAN LANGSTAFF: Thank you very much.  
13 A. Thank you.  
14 SIR BRIAN LANGSTAFF: That's all that I have to ask you.  
15 It remains to thank you for being so open with us and  
16 for giving your evidence as you have.  
17 A. Great. Thank you so much.  
18 SIR BRIAN LANGSTAFF: Ms Fraser Butlin, we'll take a break  
19 now for lunch and come back at 2.15.  
20 MS FRASER BUTLIN: Thank you, sir.  
21 SIR BRIAN LANGSTAFF: So 2.15.  
22 (12.57 pm)  
23  
24
