Dear Mr

GRO-B

Re: Extract from the National Haemophilia Database

Thank you for requesting a copy of the information held about you at the National Haemophilia Database.

We attach all the information held about you that is stored in the electronic database and those parts of the paper archive not entered into the computer record. We also attach a guide that should help you to understand the information provided.

Limited additional paper records, usually from many years ago, are available for some but not all patients and where we have sent only a computer print-out, that is because that is all the information that we hold. Paper records sent to you may be redacted, but only to obscure information on other individuals, for reasons of confidentiality. All our non-patient specific data and documentation (including historic documentation) has been shared with the National Inquiry without redaction.

We hope that you find this information useful.

Yours sincerely,

GRO-C

Prof. Charles RM Hay

Director of the National Haemophilia Database

Secretariat:

National Haemophilia Database, City View, Union Street, Manchester, M12 4JD
