23.11.95 • Self referral. L elbow haemarthrosis
 Unable to give himself treatment.
 Given 2000 u HPF VIII 2x dihydrocodeine
 1x 50mg pethidine tablet to take tonight if necessary
 Will phone tomorrow AM & will come to UNIT for
 Factor if still unable to take it himself.

12/12/95 Patient wishes to change to recombinant VIII
 due to fears of viral infec. esp Hep B (non-immune
 despite vaccination). Dr Walker asked to contact
 Hogenate; Finance Office to request funding from
 Argyll & Clyde HB.

GRO-C

9/1/96 Further discussion with pt.; also with Dr Lesley
 Wilkie, Public Health, Argyll & Clyde Health
 Board. Letter to latter. Hogenate supply uncertain
 at present but we shall enquire re other 2 recombinant
 VIII products which are being licensed/named patients
 basis.
