Dear Dr. GRO-B

RE: GRO-B DO: GRO-B/63

GRO-B

GRO-B attended the Hepatitis Clinic on 12/02/96.

He had a number of questions about Interferon therapy, it's side effects and potential outcome. I have no doubt that he fully understands matters now. He has opted to proceed with Interferon therapy and will be under regular follow-up in this unit.

I will keep you up to date with his progress.

Yours sincerely

J MORRIS
