20 October 2010

De Anne

**CONTAMINATED BLOOD (SUPPORT FOR INFECTED AND BEREAVED
PERSONS) PRIVATE MEMBER'S BILL – LORD MORRIS**

Your letter of 12 October sought clearance from the Parliamentary Business and Legislation Committee to express strong reservations on the above bill in the Lords and seek to oppose should the bill reach the Commons.

All members of the Parliamentary Business and Legislation Committee were content.

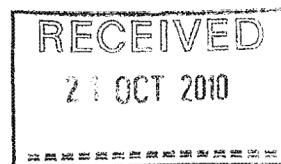

I am therefore granting Parliamentary Business and Legislation Committee clearance to express strong reservations on the above bill in the Lords and seek to oppose should the bill reach the Commons.

I am copying this letter to the Prime Minister, Deputy Prime Minister, members of the Parliamentary Business and Legislation Committee, First Parliamentary Counsel and Sir Gus O'Donnell.

Blood - Document on costs for the Library

To clear the attached document for submitting to the HoC library following on from yesterday's debate.

Officials have also taken the opportunity to use the campaigners own estimate to demonstrate that even that still comes up with a similar figure (including dependants).

Annexes not included here. We only have hard copies & officials are establishing with Parliamentary Branch how the Library would want to receive them.

18/10/2010

Yemi - tell Ravena + Debbie the exploration should be based on

the man on the pub - who knows nothing about this - ability to understand. We need this done asap so tell them to come up + grab me!

PTD

We read a story -

what happens in Ireland

- what we know
- what we don't know
- what we can estimate

Captured with notes of H/V, H/C
+ windows / windows in UK. - + then
apply Rot1 for estimate.
